## SERVICE AND REGULATORY ANNOUNCEMENTS

### BUREAU OF ANIMAL INDUSTRY

JUNE, 1930

[This publication is issued monthly for the dissemination of information, instructions, rulings, etc., concerning the work of the Bureau of Animal Industry. Free distribution is limited to persons in the service of the bureau, establishment at which the Federal meat inspection is conducted, public officers whose duties make it desirable for them to have such information, and journals especially concerned. Others desiring copies may obtain them from the Superintendent of Documents, Government Printing Office, Washington, D. C., at 5 cents each, or 25 cents a year. A supply will be sent to each official in charge of a station or branch of the bureau service, who should promptly distribute copies to members of his force. A file should be kept at each station for reference.]

**NOTICE REGARDING MEAT INSPECTION****FUMIGATION WITH "ZYKLON-B" PROHIBITED**

A fumigating preparation alleged to consist of hydrocyanic acid and an irritant warning gas absorbed in diatomaceous earth and which gives off all its gases on exposure to air is being offered to official establishments under the trade name "Zyklon-B." While hydrocyanic-acid gas is permitted, use of the irritant warning gas has never been approved. This gas is known to be a poison but has not been investigated to determine whether it is capable of rendering meat

\* No sealed cars.

exposed to it unwholesome. Accordingly, fumigation of official establishments with "Zyklon-B," or any similar mixture of hydrocyanic acid with an irritant warning gas, is prohibited.

#### BRASS BRANDS FOR MARKING MEAT

In view of the increased cost of brass brands for marking meat and meat food products, inspectors are requested to make requisition for only such brands as are actually needed to conduct their meat inspection work properly.

(This terminates license for anti-hog-cholera serum and hog-cholera virus.)

#### WARNING AGAINST POLITICAL ACTIVITY BY DEPARTMENT EMPLOYEES

Attention is called to the provisions of the notice, signed by the Secretary of Agriculture, on page 54 of Service and Regulatory Announcements for June, 1928. Under these provisions no employee of the Government will be permitted—

1. To hold a position as a member or officer of any political committee that solicits funds.
2. To display such obtrusive partisanship as to cause public scandal.
3. To attempt to manipulate party primaries or conventions.
4. To use his position to bring about his selection as a delegate to conventions.
5. To act as chairman of a political convention.
6. To assume the active conduct of a political convention.
7. To use his position to interfere with an election or to affect the result thereof.
8. To neglect his public duties.

It is the duty of any person having knowledge of the violation of any of the foregoing provisions of the civil-service rules or Criminal Code to submit the facts to the United States Civil Service Commission, Washington, D. C.

#### INSTRUCTIONS REGARDING MONTHLY TIME REPORTS

In order to simplify the work, establish uniformity, and maintain more accurate records, the following procedure should be carefully observed in the rendition of monthly time reports, Form T-40 (more than 19 names), and T-40a (19 names or less).

1. Sunday and holiday spaces must always be left blank, unless the employee actually works, is on sick leave, L. W. O. P., or as indicated in paragraph 2.
2. Only the symbols indicated at the bottom of the report should be used, and any deviation from their use must be explained, except that the letter "M" should be used for military leave, filling in all spaces for Sundays and holidays. There is no objection to use of the diagonal, "/" in lieu of the figure "1."
3. The last four columns on the form, under the heading "Leave record since January 1" must be left blank unless an employee has some kind of leave during the month covered by the report, and should then be filled in only if the employee has had previous leave and must not include the current month's leave.
4. When the regular report is forwarded with the pay roll, an employee's status for the entire month should be indicated, anticipating the status from the date of forwarding to the close of the month. Changes occurring after forwarding pay roll should be reported as indicated in paragraph 5.
5. When necessary, corrected or supplemental reports should be rendered as soon as possible after the close of the month. Such supplemental or corrected report should show only the names of employees whose status on one or more days was different from that indicated on the regular report forwarded with the pay roll and only the dates on which changes occurred for such employees should be indicated, leaving the others blank.

6. Summarizing 4 and 5 above: Take a station of 15 employees. The pay roll and time report are forwarded, say, September 22, showing all employees as on duty September 22 to 30, inclusive. September 24 and 25 John Doe takes annual leave which was not anticipated on September 22. Also, John Jones was on sick leave September 27 to 29 (1930). The supplemental time report should contain only those two names and all spaces would be left blank except 24 and 25 for Doe and 27, 28 (Sunday), and 29 for Jones. It would be understood that the other dates for these employees, as well as the dates for all the other 13 employees, were as originally reported.

7. When reports are prepared with a typewriter, care should be taken to see that the letter "L" does not look like the figure "1."

8. In the "Total days employed" column should always be entered the total number of days for each month, if employee is in a pay status for the entire month, notwithstanding that sick and annual leave are taken. When L. W. O. P. is taken, the number to be entered is the total number of days in the month, less the number of days employee was on L. W. O. P.

## PROCEEDINGS UNDER THE PACKERS AND STOCKYARDS ACT

Action taken on dockets under the packers and stockyards act during the month of June, 1930:

*Docket No. 310.*—H. R. Drake, doing business as the Drake Commission Co., market agency, Belt Railroad & Stock Yards Co., Indianapolis, Ind. On April 3, 1930, the Acting Secretary issued an inquiry and notice, alleging that respondent was insolvent, in that he was unable to pay his debts as they became due in the usual course of business. A hearing was held on May 19, 1930, at which time respondent appeared and put in evidence a bank statement and balance sheet showing that on May 15, 1930, he had a balance to his credit. On June 5, 1930, the proceedings were dismissed.

*Docket No. 313.*—James Dugdale, dealer, Union Stock Yards, Chicago, Ill. On May 21, 1930, the Acting Secretary issued an inquiry and notice, alleging that respondent was insolvent, in that he was unable to pay his debts as they became due in the usual course of business. On June 4, 1930, respondent acknowledged service of the inquiry and notice of hearing and admitted the truth of the matters and things therein alleged and waived a hearing thereon. On June 17, 1930, respondent was suspended from registration as a dealer for six months, with leave, however, during said period, to apply for revocation of this suspension upon a showing satisfactory to the Secretary of Agriculture that he is then solvent.
